## Appendix B

**Fair Processing Notice re processing of student data under Dept. of Education & Skills Circular Letter 0047/2010.**

<http://www.education.ie/en/Advanced-Search/?q=47/2010&t=all&f=cir>

**A copy of this Circular Letter is available in the school should any parent wish to view it.**

**Notice to Parents, Guardians and Students aged 18 years and over, on how the personal data of students enrolled at this post-primary school as at 30<sup>th</sup> September is returned to the Department of Education and Skills, to primarily secure teaching posts and core funding; and how these data are processed fairly and in compliance with the Data Protection Acts 1988 to 2003.**

### **Introduction**

For the Department of Education and Skills to be able to allocate teaching staff and core funding to this post-primary school to meet your child's educational needs, the Department must collect individual and personal data on each student enrolled in each recognised post-primary school, at 30<sup>th</sup> September each year.

This notice sets out the details of the personal data being collected, its purpose, what other bodies these data are shared with and why; how the Department securely stores these data and the Department's retention of these data.

### **Purposes of Collecting Individual Student Data**

Teaching posts and core funding are allocated to post-primary schools by the Department of Education and Skills each year, based on the number of *recognised* students enrolled in each post-primary school, as at 30<sup>th</sup> September in the previous year.

The Department has detailed in *The Rules and Programme for Secondary Schools* the criteria for a *recognised student in post-primary schools*. While the full set of rules is available on the Department's website, [www.education.ie](http://www.education.ie), examples include:

- a student meeting the minimum age requirement for their course and that they are following an approved course, e.g. Junior Certificate, and
- given that Irish is a compulsory subject for all post primary students, those students not studying Irish must have been granted an exemption from Irish by the school authorities, in accordance with criteria for granting such exemptions.

Hence, for each post-primary school to have the appropriate levels of teaching posts and core funding to meet your child's educational needs, each post-primary school is required to transfer individualised data on each student enrolled in our school to the Department, as part of what is commonly referred to as the school's October Returns. Much of these data the school would have to assist its management of the school but some data schools collect specifically for the purpose of making this return.

The core funding allocated to schools includes provision of English language support to those students with limited or no knowledge of English and additional resources to meet the educational needs of children who are members of the Traveller Community.

The Department has to meet many national and international statistical, policy and research requirements. The Department does not use individual data from these returns for these functions. However the Department aggregates the individual data for these purposes as well as assisting its wider planning functions.

### **How is the October Return made and where and how is the data stored?**

Post primary schools return their data electronically through the secure *esinet* network system. The data received by the Department from post primary schools through the October Returns is stored by the Department in its secure database, called the Post Primary Pupil Database. It is Departmental policy that only a small number of staff who have a requirement to view these personal data for work purposes can gain access to these data.

Upon receipt, the Principal Officer, Parents, Learners and Database Section of Schools Division becomes the data controller for these data. The Department of Education and Skills is committed to

- abiding by the Data Protection Acts 1988 to 2003,
- respecting people's rights to confidentiality and for privacy and
- keeping up-to-date all data about recognised students stored on its database.

### **What personal data is collected?**

A list of the specific data collected on each student and the purpose for which each item is collected is attached for your information.

### **What Bodies Does the Department Share Some of the Individual Data With?**

As it is necessary to return individualised data to the Department, the Department uses each student's Personal Public Service Number as a unique identifier. As part of validating that each student returned by post-primary schools is a *recognised* student, the Department transfers a limited amount of each individual student's personal data to the Department of Social Protection. This includes each child's PPS number. The legal basis for this sharing of data is set out in Social Welfare Acts.

Sharing a limited amount of the personal data with the Department of Social Protection is also important to:

- identify students that have similar details. For example, a student can only be enrolled in one school as at 30<sup>th</sup> September
- in cases where a child's PPSN number is not available, their individual identity can be determined from the student personal data together with her/his mother's maiden name
- identify the movement of students between schools over their time within the education system, while allowing their course data from different schools to be accessed for recognition purposes.

Hence, a student's PPS number provided through the October Returns is to provide a unique identifier for each student and as part of validating that each student is a *recognised* student.

The Department does share some of the personal data with other State bodies. These are:

- data on students enrolled in exam years with the State Examinations Commission to assist its planning for state examinations
- Central Statistics Office, under the Statistics Acts to assist with the compilation of national statistics and
- data on 15 years old students, excluding their PPS number to the Educational Research Centre to meet its research requirements, which include some of Ireland's international research requirements. This Centre subsequently liaises with post primary schools in respect of further data it may require on individual students to assist their research requirements.

The Department has a data user agreement with each of these bodies, which includes the purpose for which the body requires these data, its storage, security and retention. Details of existing data user agreements are available on the Department's website at [www.education.ie](http://www.education.ie) (and search for October Returns).

### **Retention of student data**

The Department retains personal data on each student up to their 25<sup>th</sup> birthday and subject to review thereafter. Since 1991, the Department has retained all individual data on students returned by post-primary schools via their October Returns. The purpose of this retention policy serves to trace student retention, is important for research and policy formation as well as being an important statistical indicator nationally and internationally. Again aggregate and not individual data is used for these purposes.

Individual records are also retained to meet individual requests from former students who may require it for employment or other purposes. The Post-Primary Pupil Database is currently the only national archive of student enrolment at post-primary schools.

The Department is continually reviewing its retention policy for student data in consultation with the Office of the Data Protection Commissioner and will update its retention policy from time to time. Any amendments will be available on the Department's website, [www.education.ie](http://www.education.ie)

### **Accessing Personal Information**

As part of the fair processing of these data for the October Returns by and between post primary schools and the Department of Education and Skills, post-primary schools seek consent from parents or guardians of children under 18 years and directly from students over 18 years of age.

This notice informs parents and students of the data collected through the October Returns and its uses. No written consent is required except in the case of what is termed *sensitive personal data*. In the case of the October Returns the Data Protection Commissioner's Office has advised that two data fields fall under this category, namely 1<sup>st</sup> Year students' medical card eligibility and membership of any student of the Traveller Community.

Post-primary school authorities are required to gain written consent from the relevant parents/guardians and students before returning individualised data on these two data fields. If either of these data fields applies to your child or if you are an enrolled student and aged over 18 years and these data fields applies to you, you are asked to complete the attached form and return it to your post primary school, before 30<sup>th</sup> September. This form will be retained by the post-primary school and will be made available for inspection by authorised officers of the Department or of the Office of the Data Protection Commissioner.

The Department of Education and Skills is committed to respecting the privacy and confidentiality of all parents and guardians and their children’s personal data and has taken all reasonable measures to do so.

Information which the Department stores on you or your child on its Post-Primary Pupil Database is available to you. If you would like a copy of these details, please write to the:

Parents Learners and Database Section  
 Schools Division  
 Cornamaddy  
 Athlone  
 Co. Westmeath.

You have the right to object to the processing of your or your child’s personal data, to block certain uses of the data and also, in the unlikely event that you identify any errors in the data held about you or your child, you have the right to correct such errors.

Further information on the October Returns is available on the Department’s website at [www.education.ie](http://www.education.ie) (and search for October Returns).

**Personal data returned by schools to the Department of Education and Skills, as part of their October Returns, and which the Department of Education and Skills shares with the Department of Social Protection, is returned to solely assist the Department of Education and Skills, policy, planning and statistical functions.**
